This matter comes before the Public Service Commission of South Carolina (the Commission) on the Application of South Carolina Electric & Gas Company (SCE&G or the Company) for indefinite suspension of Rate 28 beginning March 20, 2008.

Rate 28, which is a voluntary time-of-use rate for commercial customers, was approved by Order No. 2007-386, issued May 23, 2007. Subsequently, the Company conducted a review of Rate 28 to determine whether it was performing in a revenue-neutral manner as originally intended. The Company determined through this review that Rate 28 was not revenue-neutral, and consequently requested suspension of Rate 28, effective on March 20, 2008. Nine customers who had requested service under Rate 28 are affected by this request. At the time of their request, they were advised that Rate 28 was available to them, but none of the customers had yet been placed on Rate 28. The Office of Regulatory Staff informed the Commission on March 28, 2008 that it had no objection to the proposed suspension of Rate 28. Having been informed of the Company's intent to file revisions to Rate 28 or a new Time-of-Use rate offering no later

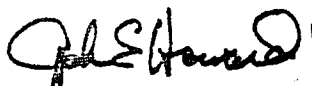

than May 30, 2008, the Commission voted on April 1, 2008 to grant the Company's request, and it is hereby so ordered.

This Order shall remain in full force and effect until further order of the Commission.
